

Eezibleed Pro Brake Bleeder

The Eezibleed Pro is designed for single handed brake and clutch bleeding the professional way. It uses compressed air through a standard 1/4" PCL adaptor for convenient and reliable vacuum power. The kit contains a vacuum fluid extractor, bleeding hose with brake nipple adaptor and refiller bottle. The generous 2 litre extracting tank, automatic reservoir top-up and safety cut-off means an entire system can be fully flushed safely and quickly. Ideal for use in a professional workshop, part of the Eezibleed range designed for successful brake bleeding in moments.

Additional Information

- Pneumatic Eezibleed Pro for convenient and reliable brake bleeding. Designed for air compressor use (minimum air flow required: 3 - 4cfm).
- Simple set-up makes it easy to fully flush a system.
- Automatic shut off when fluid reaches maximum level.
- Generous 2 litre capacity extracting tank.
- 1 litre re-filler bottle.
