

Windscreen Installation Tool Set

This handy set of tools for essential windscreen installation will prove invaluable to owners of many classic car and caravans. Two eyes (10.5mm and 17mm) are included — these are assembled to the tool with the nylon roller and are used to fit the filler strip insert used on so many vehicles and caravans from the 1950s and '60s, including Jensen, MG and Mini. Two lipping tools are included which are used for pulling the rubber windscreen lip back over the glass or metalwork. A hex key is also included to secure the tools to the non-slip handle.

Additional Information

- For fitting windscreens with plastic/rubber inserts on older vehicles.
- Contents include: Tool handle, 2 eyes 10.5mm and 17mm.
- Plus 2 lipping tools with hex key for fixing.
