

Solar Battery Maintenance Charger 12 Volt

Solar battery maintainer suitable for 12 volt batteries fitted to cars, caravans, boats and other vehicles. It is designed to prevent flat batteries and battery drain when left for long periods.

Additional Information

- Solar panel charger for 12V batteries. Includes battery discharge protection when the solar panel doesn't output current to the battery.
- Generates a trickle-charge current to a 12V battery, an effective way to charge and maintain 12V batteries; prevents batteries from being damaged if they completely discharge.
- Max power: 4.5w; working current: up to 250mA. Weight: 825g.
- Solar panel size: 353 x 235 x 14mm. Housed in strong ABS plastic. Cable length: 2.2m (including J-plug).
- Accessories included: 12V car auxiliary power plug and J-plug, battery clip connector and J-plug, 4 suction cups to easily mount onto windscreen, glass sunroof or any suitable flat smooth surface. CE, UKCA & RoHS compliant.
