

Eezibleed Multipurpose Cap

This multi purpose cap set brings the advantages of the Eezibleed brake bleeding system to a wider range of vehicles. This cap set fits vehicle reservoirs which have a neck opening but no screw thread. Easy to use, practical design featuring a sturdy universal cap, rubber seals and a strap that threads under the reservoir/servo unit with wing nut tensioners. Part of the Eezibleed range designed for successful brake bleeding in moments.

Additional Information

- Multi purpose cap design fits 15 - 67mm diameter reservoir openings.
- Allows the standard Eezibleed kit to be used on most vehicles.
- For reservoirs with neck and bayonet type fitting.
- Made from composite material with rubber seals.
- Supplied with tensioning strap to provide a tight cap seal.
